The incomparable Mardi Love, world-famous Fusion Dancer, Master Instructor, Choreographer and Costume Designer returns to Switzerland again. Don't miss out on this exciting and inspiring event! Book now! Places are strictly limited! Please note that the language of instruction is English!

Mardi Love

is assistant director, choreographer, and costumier for San Francisco-based dance company The Indigo. Mardi began dancing in San Diego with Heather Stants, and was a founding member of Urban Tribal Dance Company. She relocated to the Bay Area where she connected with the likes of Rachel Brice, Michelle Campbell, Sharon Kihara and Zoe Jakes. These days she dances with Rachel Brice and Zoe Jakes of The Indigo and the Le Serpent Rouge revue and, at times, turns out with the Bellydance Superstars. Mardi's work reflects her eye for detail and her affection for the strange and old fashioned. According to many, she has influenced tribal fusion style like no one else... from costuming to choreography down to the movements.

In her 4-hour class on Saturday, *Sweet N Saucy Combos*, Mardi presents some original combinations to add to your repertoire. Class will begin with a few isolation patterns to challenge the mind and the body. Movements are carefully broken down and drilled. Mardi will also discuss how she approaches the audience and stage presence. (Levels from Upper Intermediate to Advanced)

In *Goin' Nowhere Fast!* on Sunday, Mardi focuses on slow dancin'. Students will brush up on slow technique and take home a couple of slow combinations, but they will also delve into the nuances of a piece that give it heart and keep it interesting ... using the stage, creating mood and facial details. (Levels from Upper Intermediate to Advanced)

In the 3-hour closing workshop on Sunday, *The Waltz*, Mardi presents us with one of the most romantic time signatures, introducing movements and combos tailored for a 6/8. Using a variety of time signatures and tempos in a show does wonders for setting pieces apart. These movements venture out of that good old 4/4 rhythm. (Levels from Upper Intermediate to Advanced)
